

SPECIAL THANKS TO ETHNE AND SUSIE
"Going Africa Conferensurfing"

Rain is a gift for horticulturists

Onions and tomatoes get a rain coat

Children were more attentive

Than most of the scientific audience to the speaker

An experience so exciting..

Danger was just at the corner...

But you shared all with us..

to make it smooth and memorable!

Ethne, Susie, Richard and co.,
we wish you a bright and happy
future!
